

# MALIK RAHIMOV

Trainee QA Automation Engineer | Java | Selenium | TestNG

+994 50 313 48 00 | malikrahimov14@gmail.com

github.com/malikrahimov16 | Baku, Azerbaijan

## PROFESSIONAL SUMMARY

Detail-oriented QA enthusiast with hands-on experience in both Manual and Automation testing. Proficient in writing and executing test cases, bug reporting, and automating UI tests using Java and Selenium WebDriver. Completed practical automation projects on industry-standard demo applications (SauceDemo, DemoQA). Maintains public GitHub repositories demonstrating test artifacts and automation scripts. Eager to grow as a QA Automation Engineer in an Agile development environment.

## TECHNICAL SKILLS

<b>Languages &amp; Frameworks:</b>	Java (Basic), Selenium WebDriver, TestNG, JUnit
<b>Testing Types:</b>	Manual Testing, UI Test Automation, Functional Testing, Regression Testing
<b>Test Design:</b>	Test Case Design, Bug Reporting, Defect Lifecycle, Checklists
<b>Web Locators:</b>	XPath, CSS Selector, ID, Class Name
<b>Tools &amp; Config:</b>	ChromeDriver, WebDriverManager, Explicit/Implicit Waits, Page Object Model (basic)
<b>Version Control:</b>	Git, GitHub
<b>Other:</b>	IT HelpDesk, Basic Networking, Windows/Linux

## PROJECTS

### Automation Testing — SauceDemo (UI Test Suite)

Java | Selenium WebDriver | TestNG | ChromeDriver

- Automated end-to-end login, product selection, and checkout flows on saucedemo.com
- Implemented Page Object Model (POM) pattern for maintainable test structure
- Applied Explicit Waits and CSS/XPath locators for stable test execution
- Covered positive and negative test scenarios; documented results

### Automation Testing — DemoQA (Web Elements & Forms)

Java | Selenium WebDriver | TestNG

- Automated form submissions, drag-and-drop, alerts, and iframe interactions on demoqa.com
- Used various element locator strategies (ID, CSS Selector, XPath)
- Validated dynamic UI elements and pop-up handling

### Manual Testing — Bookwriter Application

Manual Testing | GitHub | Test Documentation

GitHub: [github.com/malikrahimov16/bookwriter-qase-tests](https://github.com/malikrahimov16/bookwriter-qase-tests)

- Created comprehensive test cases and test checklists for a web application
- Documented bug reports with steps to reproduce, severity, and expected vs actual results
- Organized test artifacts in GitHub repository following QA documentation standards

## WORK EXPERIENCE

### Call Center Support Representative

2026 – Present

AZBA Audit and Business Services — Aztelekom LLC

- Handled technical and service-related customer inquiries, developing strong attention to detail
- Documented and escalated technical issues following structured reporting procedures

### Call Center Support Representative

2021 – 2026

AZBA Audit and Business Services — Azeronline LTD

- Resolved technical issues for internet and telecom customers
- Maintained detailed records of customer interactions and resolutions

### **Call Center Support Representative**

2019 – 2021

Avand Technology LLC — Ministry of Transport (109.155)

- Provided first-line technical support for a government unified call center

### **IT HelpDesk Support (Practice)**

2017 – 2018

Nasir Technologies

- Assisted with hardware/software troubleshooting and user support
- Gained foundational knowledge of IT infrastructure and networking

### **Electronics Engineer — UPS Systems**

2012 – 2017

Avangard UPS LLC

- Maintained and repaired Uninterruptible Power Supply systems

## **EDUCATION & CERTIFICATIONS**

### **Baku College of Communication and Transport**

2009 – 2012

Technical Education

### **IT HelpDesk Course — Network Training Center**

Nov 2018

Certificate: IT Essentials

### **QA Manual & Automation Testing (Self-study + Practice)**

2023 – Present

Selenium WebDriver, Java, TestNG, test design techniques
