## PROFILE SUMMARY

I work on planning and developing technology-driven projects, with a current focus on digital management solutions for the construction sector, particularly leading the technical and functional development of the Strux platform. I actively participate in decision-making related to management, system design, and product strategy. At the same time, I expand my technical expertise by working on various IoT and embedded systems projects. I turn complex challenges into scalable solutions that deliver measurable value and competitive advantage.

## EDUCATION

**Azerbaijan University of Architecture and Construction**  
B.Sc. in Information Technologies  
(Currently Enrolled)  
Expected Graduation: 2027

## CERTIFICATIONS

- Construction Technologies Incubation Program Certificate:** Specialized program focused on digital transformation and innovative project management within the construction sector.
- Leadership Development Certificate (Global Leadership Partners):** An international training program covering team management, strategic planning, and effective leadership skills.
- Mendix Rapid Developer Certification (Mendix):** An internationally accredited certification for building rapid **applications and software solutions using "low-code" platforms.**
- Electronics Training Program Certificate (Technest):** An advanced training program specializing in electronics and hardware development.

## SKILLS

- Digital Product Development
- IoT & Embedded Systems Development
- Geographic Information Systems (GIS)
- 3D Design & Modeling
- Hardware Development
- Team Collaboration
- System Design

## AWARDS & ACHIEVEMENTS

- 3rd Place — **Construction Technologies Incubation Program:** *Awarded grant funding for an innovative construction technology startup project.*
- 2nd Place — **Siemens Sustainable Design Hackathon:** *Developed an innovative solution for sustainable agriculture.*
- 1st Place — **Robotex Eurasia:** *Developed an innovative robotics solution, winning the international competition.*
- 2nd Place — **WRC Azerbaijan:** *Achieved second place in the national robotics competition.*
- 2nd Place — **CulTech Hackathon (SUP.VC)**
